IMPACT OF THE RUSSIA/UKRAINE CRISIS ON THE SUPPLY CHAIN

Dear Business Partner

The massive conflict of the Russia/Ukraine crisis leads among other things to big questions and concerns in the economy – also concerning effects on the supply chains.

We have already received some, justified, inquiries from our customers regarding this matter, which we answer with this letter.

Wetropa is NOT dependent on supplies from Russia or Ukraine, therefore an impact on the supply chain is currently NOT expected. We do not expect any supply chain disruption to occur.

Wetropa, together with its raw material suppliers, will constantly monitor the market. Should a new situation arise, you will be actively informed by us without being asked.

Our sympathy goes to the Ukrainian people!

Yours sincerely

Dirk Breitzkreuz
CEO
